

The Central Toronto Veterinary Referral & Emergency Clinic is accepting applications for Registered Veterinary Technicians to join our dynamic referral service team. The CTVR&EC provides specialized care and comprehensive services in internal medical, surgery, diagnostic imaging and oncology. Our technicians work in collaboration with our Veterinarians to provide 24-hour, state-of-the-art care to animal patients.

The successful candidate will possess multi-tasking skills to manage patients, demonstrate attention to detail for providing care, and possess excellent communication skills to effectively interact with patients, clients, Veterinarians, and colleagues. Board certification with the Academy of Veterinary Technicians in Anesthesia and Analgesia preferred.

Basic veterinary technician skills are expected. The position allows for performance and training in surgical procedures, patient triage, radiology, CT, anesthesia, blood transfusion, jugular catheterization, central lines, arterial blood draws, epidurals and client education.

Compensation commensurate with experienced and/or board certifications; shift premiums; Ontario Association of Veterinary Technician (OAVT) annual dues reimbursement; continued education/conference support; comprehensive benefits package including life insurance; staff pet allowance; and uniform.

Our referral service operations Monday to Friday from 7am to 7pm, excluding statutory holidays. Our schedules provide a consistent rotation that promotes work/life balance.

If interested in applying please contact the hospital manager, Terri Walmsley, at twalmsley@ctvrc.ca
