Cummings School of Veterinary Medicine at Tufts University in North Grafton, Massachusetts provides 24-hour care for pets 365 days of the year. Since 1985 we have offered high quality medical care, consultation, referral and emergency veterinary services to dogs, cats, exotic pets and large animals on a beautiful New England Campus. We are currently hiring two experienced anesthesia technicians, one to work in our anesthesia department providing care for all sections within the hospital and one to be imbedded as a radiation oncology technician providing anesthesia support and technical support to our growing Radiation Oncology department. If you are seeking a position which recognizes growth, learning, and values your contributions – you have found it. We also have a unique opportunity to teach and work with veterinary students in their final year of school, directly influencing their growth and preparation for going out into practice.

Some of the many additional perks of working at Tufts include: competitive salaries commensurate with experience, sign on bonuses, shift differentials, on-call and emergency stipends, access to numerous CE resources and a CE allowance, Medical/Dental/Vision, retirement savings plans, legal services plan, generous paid time off and a minimum of thirteen holidays throughout the calendar year, long-term disability, Employee Assistance Program, Flexible Spending Accounts, tuition reimbursement, pet care benefits and many discounts that come with being a Tufts University employee!

Description:
> **Anesthesia-** Full- time 4 day a week schedule. While on-call is a requirement for this position, we are focused on work-life balance and try to keep on-call to a minimum.
> **Radiation Oncology**- Full-time 4 day or 5 day a week schedule. No on-call requirement. No weekend or holiday shifts.

Pay structure: Compensation is commensurate with experience and credentialing.
> **Anesthesia**- $29.10-$48.40/hour
> **Radiation Oncology-** $28.35-$47.95/hour

Both positions qualify for a $2000 sign on bonus following successful completion of 6 months of employment for newly hired employees.

Minimum requirements for both positions:

- Mastery of advanced technical and procedural skills in anesthesia and critical care monitoring
- Certified Veterinary Technician in good standing
- Associate OR bachelor's degree from an AVMA-accredited institution providing training in veterinary technology, veterinary nursing, or veterinary science or degree in a related field.
- A minimum of 3 years of experience as a certified veterinary technician in a University Hospital or in a similar environment
- Demonstrated ability to work independently when conducting complex tasks.
- Exceptional interpersonal and communication skills with the ability to work effectively as a member of a diverse team of clinical and administrative professionals.
- Highly motivated, enthusiastic self-starter with a professional attitude.
- Excellent understanding of medical terminology and veterinary pharmacology, including knowledge of and ability to identify adverse drug reactions.
- Demonstrated ability to provide exceptional service to both internal and external customers, and to work collegially as part of a team.

- Demonstrated ability to instruct students, as determined by student feedback.

Preferred Qualifications
- Veterinary Technician Specialist in anesthesia or VTS tracking in anesthesia.
- 3 years dedicated anesthesia experience in an academic setting.
- Experience teaching other technicians, veterinary students, veterinary technician students.
