

# UNIVERSITY OF SASKATCHEWAN

Veterinary Medical Centre  
Western College of Veterinary Medicine  
University of Saskatchewan  
Saskatoon, Saskatchewan

The University of Saskatchewan, with a student population of about 20,000, boasts a beautiful campus located in Saskatoon, a prairie city with a population of over 250,000. The city offers a scenic riverbank, many parks, a diverse and thriving economic base, a vibrant cultural community, affordable living, and a high quality of life. The University of Saskatchewan has a reputation for excellence in teaching, research, and service and has the widest array of health science colleges in Canada.

The Veterinary Medical Centre (VMC) is a state-of-the-art animal health facility that offers a wide range of clinical and referral services to western Canadian animal owners and veterinarians. The VMC is part of the Western College of Veterinary Medicine (WCVM) - the regional veterinary college for Western Canada and the North. The VMC is an AVMA and AAHA accredited hospital and referral centre employing approximately 120 staff with a case load of about 18,000 cases per year. The VMC offers primary clinical services such as vaccinations and regular checkups, plus it provides a range of specialized services including medical imaging, internal medicine, surgery, oncology, dentistry, ophthalmology, reproduction services, acupuncture and rehabilitation. It also offers 24-hour emergency and critical care and serves as the referral centre for veterinarians across Western Canada.
