Alameda East Veterinary Hospital

We have an incredible team of professionals and we're dedicated to our colleagues, great client service, and the highest-standards of patient care.

VCA Alameda East Veterinary Hospital is seeking credentialed veterinary technicians to join our surgery/anesthesia team. Are you ready to be part of a fast paced, growing, advancing and rewarding team? Our technicians are responsible for standard and advanced technical duties, client communication and patient care related to their role and department. As we move towards developing an anesthesia department to support all services, we are looking for driven individuals who want to both advance their own skills and knowledge but also help build this new support service for the hospital. Candidates perfect for this position are motivated team players, who poses a positive and collaborative attitude, have good communication skills, like to be busy and are want to learn and to teach.

VCA Alameda East Veterinary Hospital has an exciting history (https://en.wikipedia.org/wiki/Emergency_Vets). We were established in 1971, became a 24 hour hospital in 1974, and we aren't slowing down. We take pride in providing outstanding, innovative patient care. We are so proud of the hospital and team we work with and we want YOU to join us.

Benefits of working with our highly skilled team:

- We have a Board-Certified Anesthesiologist on site.
 - Hands-on learning, didactic training, collaboration on case management and treatment to provide the highest quality patient care.
- Multi-parameter monitoring equipment.
- Utilization of advanced technology; CT, MRI, video otoscopy, nerve locators and more.
- After training, autonomy to perform advanced technical skills: a multitude of local and regional nerve blocks, arterial catheters, central lines and more.
- Our specialty services are growing! We have Anesthesiology, Cardiology, Critical Care team, Rehabilitation, Surgery, Neurology, Oncology, Radiology, Internal Medicine and soon Ophthalmology.

Responsibilities:

- All tasks related to inducing, maintain/monitoring, and recovering patients from anesthesia.
- Think analytically through disease process and patient needs.
- Inspire and teach students and new associates.
- Ensure documentation is appropriate, thorough, and complete.
- Paid on-call responsibilities.

Qualifications:

- Experienced, credentialed technicians are preferred.
- New graduates must have a strong interest in anesthesia and keen ability to apply knowledge and advance quickly.

Our hospital is located in beautiful Denver, CO. You can be in the mountains within 30 minutes to enjoy all the sports and outdoor activities your heart could desire. Outdoors isn't your thing? Not to worry, Denver is in top ranking for Craft Breweries and the food scene is amazing.

If you're ready to join a family-like environment and have fun while you're at work please apply using this link: https://vca.wd1.myworkdayjobs.com/Careers/job/Denver-CO/Veterinary-Technician-Surgery_R-06464-1 If we think you're potentially a good fit for our hospital we will contact you via phone call shortly.
