

Veterinary Technician—Anesthesia

Are you tired of working endless hours in a large busy practice? Are you ready for a lifestyle change? Or do you want to supplement your full time job with additional PT hours? Veterinarian with over 30 years of experience is in search of an anesthesia technician to join a new traveling surgery practice. Join me in a new endeavor to service small animal general practices in the Philadelphia area. Ultimate flexibility.

Essential job duties include but are not limited to:

- medical math calculations and knowledge of pharmaceuticals
- venipuncture, including venous catheter placement (peripheral and central)
- intravenous fluid and blood transfusion administration
- obtain radiographs
- laboratory assessments
- sedation and anesthesia monitoring from induction to recovery
- epidural and various local/nerve blockade administration
- aseptic preparation of patients prior to a variety of surgical procedures
- surgical suite/instrument use, care, and maintenance

Assist surgeon with minimal and advanced surgical procedures to include, but not limited to:

- orthopedic (fracture fixation, CCL repair, etc.)
- soft tissue (mass excisions, urogenital, etc.)
- abdominal (GI, splenectomies, etc.)

If you are a skilled RVT/CVT/LVT, VTS (Surgery or Anesthesia/Analgesia) and are seeking an exciting career in your beloved profession, I want to meet you!

Salary commensurate with experience.
