

**ORAL SURGERY  
ADVANCED DENTISTRY**

---

**Work-life balance: 4 Day work weeks! No holidays, weekends, or night shifts!**

[Animal Dental Clinic & Oral Surgery NW](#) is seeking additional CVTs to join our family with either a **strong interest in dentistry or anesthesia**.

Animal Dental Clinic & Oral Surgery NW is a well-established, privately owned referral specialty practice located in Portland, Oregon. Our team of CVTs and VTSs offer tremendous support for the specialty field of dentistry and anesthesia, as do our three board certified veterinary dentists. We operate Monday-Thursday and are closed for all major holidays and weekends.

The ideal team member will have a minimum of 2 years of veterinary clinical experience. This position would be a great fit for someone who enjoys surgery and advanced anesthesia cases, CRI's, drug calculations and local blocks. We have CR and DR dental radiography

and Cone Beam CT. We also provide endodontics, orthodontic, jaw fracture repairs, cleft palate repairs and oral tumor surgery. We are ready to train any CVT who shares this passion for advancement in dentistry and/or anesthesia. This person must be team oriented, motivated, professional, adaptable, and an excellent communicator with their peers as well with clients.

We offer very competitive pay, scrub allowance, employee discounts, a hardy benefit package including a 401K with a 4% match, bonuses, medical/dental/optical insurance, and generous PTO. We also offer ample CE opportunities, including hosted events within our adjacent conference suite, and a CE allowance. VTS in dentistry or anesthesia is not required for the position, but we will support any team members who choose to pursue their VTS.

If you are interested, please send your cover letter and resume to **[practicemanageradcnw@gmail.com](mailto:practicemanageradcnw@gmail.com)**. A sign on bonus and/or relocation assistance may be available.
