

**Registered Veterinary Technician for Surgery Service - \$3500 HIRING BONUS**  
Medical Support – Durham, North Carolina

The Triangle's premier emergency and specialty hospital is seeking a highly motivated, highly skilled registered veterinary technician to join our surgery team. We provide 24-hour emergency service and specialty referrals in surgery, internal medicine, cardiology, oncology, neurology, radiology and rehabilitation, and we're looking for technicians who want to utilize their skills to the fullest potential in a fast paced, fun, and stimulating environment.

We are expanding our surgery department and would like to add new members to our team of board certified surgeons, surgery/anesthesia technicians and surgery assistants. Members of the surgery team function with a great deal of autonomy and responsibility. Solid technical skills and anesthesia knowledge base, sound judgment, and the ability to function both independently and with a team are required. Strong communication skills, verbal and written; organizational skills; proactive thinking and the right attitude are also a must. Duties include patient prep and recovery; patient assessment; pain management; and anesthesia monitoring using multi-parameter monitoring equipment for a variety of anesthetized procedures including endoscopy, CT, soft tissue surgeries, orthopedic surgeries and laparoscopic procedures.

Our new facility, advanced equipment (including digital radiography, ultrasound, endoscopy, laparoscopy, and CT) and services allow plenty of opportunities for growth.

**Job Summary**

Essential job functions of an anesthesia technician are primarily to perform general anesthesia and sedation on dogs, cats and occasional exotic/pocket pets within the TVRH facilities. Anesthesia technicians work within the surgery department, however may be required to perform anesthesia and/or sedation in other departments as well. They are also required to perform the duties of a surgery technician when necessary.

**Essential Job Functions**

Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.
