

Animal Eye Doctors is a solo specialty practice located in beautiful southwest Florida between Naples and Fort Myers. Our white sandy Gulf beaches are quite beautiful. Boating, stand-up-paddle, and kayaking are popular pastimes. Our area has a smaller town, relaxed feel.

Our practice is growing and we are seeking a second veterinary Anesthesia Technician to join our team. We perform advanced ophthalmic surgical procedures such as cataract and corneal surgeries, often requiring long surgical times and advanced anesthetic techniques.

We have a friendly team of six dedicated, knowledgeable, and compassionate veterinary technicians. Though currently we have one doctor, we will be adding a second. In addition to monitoring anesthesia, duties would include surgical scheduling and helping outpatient nurses when needed. We work Monday through Friday and no scheduled evening or weekend duty.

Benefits include:

- 401K
- PTO and holiday pay
- Health Insurance
- Reimbursement for licensing and membership
- Provided Uniforms

If you have an interest in joining us, our contact information is:

Dr. Christi Warren
