

Registered Veterinary Technician -VTS Anesthesia Job Advertisement

Veterinary Dentistry and Oral Surgery of Ohio is looking for a full-time **Registered Veterinary Technician - VTS Anesthesia** to join our exceptional, quickly growing specialty practice in Columbus.

Job Title: Registered Veterinary Technician

Type: Full-time

Hours: Monday – Thursday, 7am – 5pm (no Fridays or weekends!)

Description: This individual will be responsible for a myriad of duties, including but not limited to:

- Placing IV catheters, administering oral and injectable medications, and accurately assessing various biological parameters in awake and anesthetized patients
- Creating and administering anesthetic protocols, including inhalant and injectable anesthesia
- Operating radiographic equipment including cone-beam CT
- Monitoring patients prior to, during, and after anesthetic procedures
- Maintaining accurate and detailed records of anesthetic events, patient responses, and interventions
- Educating and interacting with clients through phone conversation and in-person appointments
- Assisting in the presentation of continuing education courses for veterinarians and veterinary technicians

About us: Veterinary Dentistry and Oral Surgery of Ohio is the premier facility for veterinary dentistry in the state of Ohio. Upon opening in January 2021, it was the only veterinary practice in Ohio with a Board-Certified Veterinary Dentist and remains today the only female-owned veterinary dentistry practice in the state.

Mission Statement: Our mission is to grant peace of mind to pet owners and veterinarians while providing comfort to our patients through high-quality, specialized care in anesthesia, dentistry, and oral surgery.

What makes us different:

- Four-day work weeks
- Competitive pay
- Quarterly goals and rewards
- Emphasis on continuing education opportunities to encourage professional growth
- Commitment to maintaining a positive office culture through adherence to our core values of integrity, adaptability, excellence, balance, and respect

Skills and Qualifications:

- Demonstrates a comfort with anesthetic monitoring protocols including blood pressure, capnography, temperature, and ECG, as well as a thorough knowledge of animals with complicated medical conditions that pose a higher anesthetic risk
- Communicates effectively and respectfully to both clients and other team members
- Acknowledges familiarity with fear-free restraint
- Exhibits dedication to excellent client service, as well as enthusiasm for both patients and the people who love them
- Displays a calm attitude and willingness to communicate in difficult situations
- Possesses a strong sense of personal responsibility, a passion for learning, and commitment to excellence

Education and Experience:

- Associate Degree in Veterinary Technology, as well as a current RVT license in the state of Ohio
- Veterinary Technician Specialist (VTS) certification in Anesthesia
- Three years of work experience as a Veterinary Technician
- Must be able to comfortably lift at least 30 pounds of weight

Benefits*:

- Retirement savings account with employer matching
- Medical expense reimbursement through a QSEHRA
- Supplemental disability insurance enrollment option
- Continuing education reimbursement
- Generous paid time off and uniform allowance

To apply, please send your resume and cover letter to admin@ohiovetdentist.com along with your availability for a phone interview.

*Benefits granted after 90 days of employment
