

**Are you an experienced Veterinary Technician who wants to:**

- Be a crucial member of a Team that helps pets see again?
- Work with supportive Veterinarians and mentored by experienced ophthalmology technicians?
- Financial support for professional development and continuing education?
- Work for one of the fastest growing, single specialty, privately owned, veterinary practices in the Southeast?

Animal Eye Guys may have the perfect opportunity for you!

Rediscover your passion for healing as you join a team of exceptional Veterinary Professionals, committed to medical and surgical excellence in an empathetic, friendly and fun environment. Spend your time on interesting and challenging ophthalmology cases where you make a difference in the lives of our patients and their owners. Work in an environment where excellent patient care is prioritized, and meaningful client relationships are encouraged.

Join the Animal Eye Guys Team as a Veterinary Technician at one of our seven South Florida locations.

**About us:**

Animal Eye Guys of South Florida was founded in 2012 by Dr. Robert Swinger and a single, tenacious employee that served as technician, receptionist and public relations specialist in one! Eight years later, we have only continued to grow to serve multiple counties throughout Florida from seven different locations. We are pleased to say, our first employee remains a valued member of our Animal Eye Guys Team to this day. We contribute our success to the same sense of duty that we started with eight years ago - provide a memorable experience to each and every client through our over and above standard of care and our ability to educate our pet parents on the healthcare concern at hand.

**About this role:**

As a Veterinary Professional, you already have a pretty good idea as to the day-to-day requirements of being a talented Veterinary Technician. Here are some of the key skills that we are seeking:

- Ability to comfortably manage patients of various sizes under anesthesia while maintained on a ventilator
- Knowledge of surgical site preparation, surgical instrument care and anesthesia machine maintenance
- Venipuncture, laboratory specimen preparation, and the ability to learn to conduct accurate and consistent ophthalmic diagnostic tests

**About you:**

- An interest to learn about veterinary ophthalmology medicine
- The ability to listen and speak with empathy with teammates and clients alike
- State license to work as a certified/licensed/registered veterinary technician (preferred but not required)
- An adept learner willing to explore new horizons and accept change when based on sound professional foundations
- You know your measure, can work independently but you also know when to call for assistance
- You respond to the real setbacks that we all know happen with positivity and grace

## **Our Offer:**

Our employees are our biggest asset, and it is important to us that every Team Member feels valued and supported. As part of our commitment to our employees, we offer very competitive wages based on experience and considerate benefits:

- Medical, Dental and Vision insurance
- Complimentary life insurance
- 401K with employer matching
- Complimentary license renewal and annual continuing education allowance
- Annual uniform allowance
- Generous Paid Time Off
- Work life balance including paid holidays and Sundays off
- Team Building events
- Employee pet benefits

**\$3,000 sign on bonus** available for qualified Technicians who join our Team!

If you're ready to join our Animal Eye Guys Team, please submit your resume today! We can't wait to meet you!
