

Lead Veterinary Technician

Lead Technician needed to oversee anesthesia, surgical prep and medical services.

The Dog and Cat Depot is a fast-growing Wellness and Spay-Neuter Clinic with a focus on Dentistry, Spay-Neuter and Preventive Healthcare.

Full-time position, variable hours

Looking for an experienced technician with strong leadership and technical skills and an advanced understanding of common medical conditions, treatment options and a familiarity with common medications and preventive healthcare protocols.

The Lead Tech will be responsible for many aspects of medical care of patients to include:

1. Coordinate premedication, induction, prep and monitoring of surgical patients.
 - Average of 30 spay-neuter procedures on spay-neuter days
 - Average of three to five surgical procedures on non-spay-neuter days (mass removals, cherry eye, enucleations, dentals etc)
2. Oversee medical services being provided on appointment days.
 - Present Core Healthcare recommendations to clients
 - Present treatment options for commonly treated conditions
 - Review medications, treatments and charges prior to discharge
3. Play integral part in training new employees.
4. Participate in creation and implementation of policies and procedures.

Compensation is negotiable based on experience and performance.
