

Veterinary Anesthesia Technician

The University of Tennessee College of Veterinary Medicine, Knoxville, TN, USA

The Department of Small Animal Clinical Sciences at the University of Tennessee Veterinary Medical Center (UTCVM) is currently seeking to fill two Veterinary Anesthesia Technician positions.

Join a highly skilled and collaborative academic team consisting of ten credentialed veterinary technicians, five anesthesia and analgesia VTS-certified technicians, four board-certified anesthesiologists, four residents, interns, veterinary students and a veterinary assistant. In this role, you will play a vital part in delivering exceptional anesthetic care and ensuring safe, high-quality anesthesia across a diverse caseload.

This position offers the opportunity to work with complex cases in a Small and Large Animal Hospital while contributing to the education and training of future veterinarians. It is a hands-on role in a premier veterinary teaching hospital, where your contributions directly impact both patient care and clinical education.

Key Responsibilities include:

- Providing comprehensive support throughout all phases of anesthesia
- Collaborating closely with anesthesiologists and clinical teams to maintain high standards of patient care
- Monitoring patients using advanced, multi-parameter anesthetic equipment
- Assisting in the clinical instruction and mentorship of veterinary students
- Participating in continuing education and professional development opportunities
- Develop and perform patient-specific, multimodal anesthesia protocols for various ASA levels and procedure types under the supervision of an anesthesiologist
- Provide after-hours and on-call support for emergency cases

If you are passionate about veterinary anesthesia and are seeking a role that extends beyond individual case management to include education and team-based care, we encourage you to explore this opportunity at UTCVM.

The University of Tennessee offers a strong academic community rooted in excellence, innovation, and collaboration. Located in Knoxville, the area provides a vibrant lifestyle with access to outdoor recreation, cultural events, and a welcoming community.

Employees benefit from a comprehensive compensation and benefits package, including health, dental, and vision, retirement, paid time off, and professional development support through CE travel stipends or career ladder advancement. UTCVM is committed to fostering career growth and helping you expand your skills within the field.
