\$1000 Hiring Bonus

We are looking for a hard working and motivated Licensed Veterinary Technician to join the team as our Floor Supervisor.

Sirius Veterinary Orthopedic Center employs 3 full-time surgeons and 8 Licensed Veterinary Technicians (6 in Anesthesia, 2 in Patient Care). The Floor Supervisor will lead all LVTs and work in collaboration with the Veterinary Assistant Supervisor to accomplish the daily and long-term goals of the surgical staff, while ensuring a positive outcome for all patients.

Our facility is equipped with 4 operating suites, Mindray WATO EX-35 anesthesia systems, multi-parameter monitoring equipment, a dedicated sterile processing area, and a separate post-operative recovery room. Imaging capabilities include Digital Radiography, Computed Tomography, and C-Arm.

Desired Qualifications:

- Minimum of 2 years leadership/supervisory experience
- Minimum of 3-5 years recent experience working as a Veterinary Technician
- Desire to remain current in the industry
- Have an in-depth knowledge of canine and feline anesthesia
- Broad technical skills (venipuncture, diagnostic imaging, fluid therapy, pharmacology, etc.)
- Proficient in usage of specialized equipment in anesthesia support and post-operative patient care
- Interest in helping other Veterinary Technicians grow professionally
- Ability to clearly communicate expectations

Supervisory Responsibilities (Department Flow):

- Effectively plans, directs, and manages the day to day operations of the department
 - Assigns anesthetic cases to LVTs
 - Works with Surgeons and Sterile Processing staff to determine procedure order
 - Be open to changes as they occur, or additions to the surgical day
- Supervise patient care staff to ensure that Surgeon's orders are being followed

- Point of contact for surgery scheduling if questions arise
- Provides support during various phases of anesthesia: sedation, induction, intra-operative, and post-operative
- Assist with day cases, bandages changes/application, etc when needed
- Equipment troubleshooting (anesthesia, imaging, etc)

Administrative Duties:

- Collaborate with the Training Supervisor to address training needs and provide adequate opportunities to accomplish goals.
- Meet with the Clinical Manager as needed to go over necessary items regarding the team, daily flow, efficiency, new ideas, etc.
- Encourage independence and growth
- Encourage accountability and trust among team members
- Lead by example

Schedule: This position is 40 hours/week. No weekends or major holidays. No on call duties.

Compensation: Minimum \$20.00/hr (This is a minimum starting wage, experience is considered)

Some Benefits Include: Medical Insurance, Retirement Plan, Profit Sharing, Paid Time Off, Uniform Allowance of \$200/yr, Continuing Education Allowance of \$1250/yr.

You must currently hold (or be eligible for) a Nebraska Veterinary Technician License.
